

SCOOTER PARK

Remove clutter and increase
safety with Scooter Park

- Innovative ring and padlock locking system
- Compact, sturdy design and easy installation
- Secures to the ground with four anchor bolts
- Ideal for schools, libraries, parks and shopping centres
- Weather resistant for outdoor as well as indoor storage
- Manufactured using powder coated galvanised steel for all conditions

Scooter Park is a tough, compact and secure parking space for scooters. Simply slide and lock the scooter into the rack to reduce theft, take away trip hazards and tidy up playgrounds.

Each six-slot frame is made from rust resistant galvanised steel to last in the toughest outdoor conditions. Or its compact design can fit into almost any indoor space. Scooter Park combines functionality and the aesthetics to blend easily into any environment.
