SKATEBOARD PARK

Store skateboards with this easy, secure and compact solution

- Innovative ring and padlock locking system
- Compact, sturdy design and easy installation
- Secures to the ground with four anchor bolts
- Ideal for schools, libraries, parks and shopping centres
- Weather resistant for outdoor as well as indoor storage
- Manufactured using powder coated galvanised steel for all conditions

Skateboard Park is a compact and secure parking solution that takes the hassle out of storing skateboards around schools and shopping centres.

With an easy to use ring and padlock system, each eight-slot frame is made from rust resistant galvanised steel to last in the most extreme outdoor conditions. Or it can also be easily installed in compact indoor spaces. Skateboard Park reduces theft, removes trip hazards and unclutters common areas, combined with an aesthetic that blends easily into any environment.
